

Come out of the dark ages and into the light!

Tufting machine LED kits are a great upgrade from the fluorescent lighting found on most tufting machines. Our LED kits come in various lengths to fit most tufting machines to include CMC and Tuftco.

Benefits of our LED kits

- **EcoFriendly**
- **Low Power Consumption (1.44w/ft)**
- **High intensity light (~138 lm/ft)**
- **No mercury** like fluorescent
- **Waterproof** and **Dustproof**
- **Flexible** and **modular**
- **Directly connects** to 12VDC PLC's
- **Easily attached**
- **Plug and Play**

Save **TIME** and **MONEY** on Quality Control!

See imperfections **AS THEY HAPPEN** so you can stop production and resolve the issue immediately!
